SUMMARY AND MOTIVATION

- As an aspiring web developer, I have dedicated the last 4 years to enhancing my skills and transitioning my experience as an analyst into a deep passion for web development.
- With a creative mindset, strong determination, and a preference for structure, I am continuously expanding my skill set to become a valuable asset in the IT field.
- My passion lies in front-end technologies, where I can create dynamic and engaging user experiences.
- I seek an entry-level position to join an expert team where I can contribute and grow within a diverse, inclusive, and supportive environment. I am open to receiving feedback, as it demonstrates my enthusiasm for learning and my ability to adapt and embrace new technologies and processes.

- Structured

PROJECTS

- Junior Front-end Developer** / Riga Tech Girls
Client: Ministry of Smart Administration and Regional Development
Goal: a web-based customized version of the 2050 Energy and Emissions Calculator for Latvia based on an adjusted Excel model of the UK Climate Calculator
 - Develop a responsive website designed by the UX/UI team
 - Debug and troubleshoot front-end issues
 - Follow the Kanban style methodology

Tools & Technologies: JSX, SASS, Vue.js, Git/GitHub, VS Code, Trello, Figma

Product delivered: [Climate Calculator 2050](#)

- Junior Web Developer** / Riga Tech Girls
Client: Animal Shelter Mežavairogi
Goal: a modern and user-friendly website for the animal shelter
 - Collaborate with UX/UI designers and the Product Manager to create a systemized approach toward design and functionality
 - Implement secure payments via credit card and Internet banking platforms for donation purposes

Tools & Technologies: WordPress, PHP, Trello, Figma

Product delivered: www.mezavairog.lv

JOB EXPERIENCE

- 2023.oct – 2023.dec
Junior Front-end Developer | Internship (for 3 month)
Accenture Baltics / Riga
 - Advancing my front-end development skills through hands-on experiences. Following a structured internship roadmap crafted by experienced professionals.

Tools & Technologies: JavaScript, TypeScript, Redux.js, Git/GitHub, React.js, Atomic Design, styled-components
